## **DETAILED ACTION**

This action is responsive to the last correspondence of record, dated August 15, 2005.

### ***Drawings***

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

2. Claims 9-20 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The phrase 'consisting of elements previously set forth in independent Claim 1' renders the claims dependent. As such, the recitations of claims 9 and 16 do not further limit independent claim 1 and are therefore objected to in this form.

3. Claims 9 and 16 are objected to because of the following informalities: the term 'prior art' in line 2 of claims 9 and 16 should be removed, and in line 3 of claim 9 and

lines 3-4 of claim 16, after the word 'improvements' the phrase 'to prior art result in' should be replaced by the word –comprise-- to provide clarity to the claims. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-8, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As best understood by the examiner, the applicant has intended claim 1 to be a Jepson-style claim. However, the claim as written is vague and indefinite. The following corrections would provide clarity and definiteness to the claim:

- In line 2 of claim 1, after the word 'human' remove the phrase 'prior art.'
- In line 2 of claim 1, insert a colon after the word 'comprising.'
- In line 12 of claim 1, after the word 'improvements' remove the phrase 'to prior art result in' and insert the word –comprise--.

***Allowable Subject Matter***

6. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3764

7. Claims 2-8, 21 and 22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Cottino (US Pat. No. 5,440,996) teaches a track set comprising straight, arced and curved tracks, as well as connecting elements between the tracks.

10. Thomas (US Pat. No. 3,545,747) discloses an educational track that teaches multi-colored track elements, as well as a means for connecting the tracks.

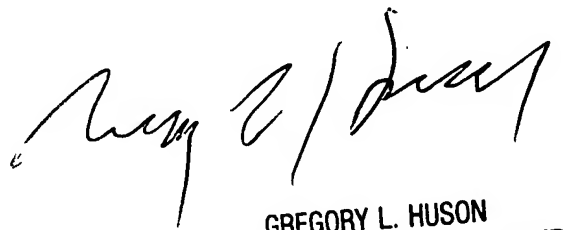

11. Christiansen (US Pat. No. 3,464,624) discloses a track comprising straight and arced track members, as well as readily detachable steps.
